Product

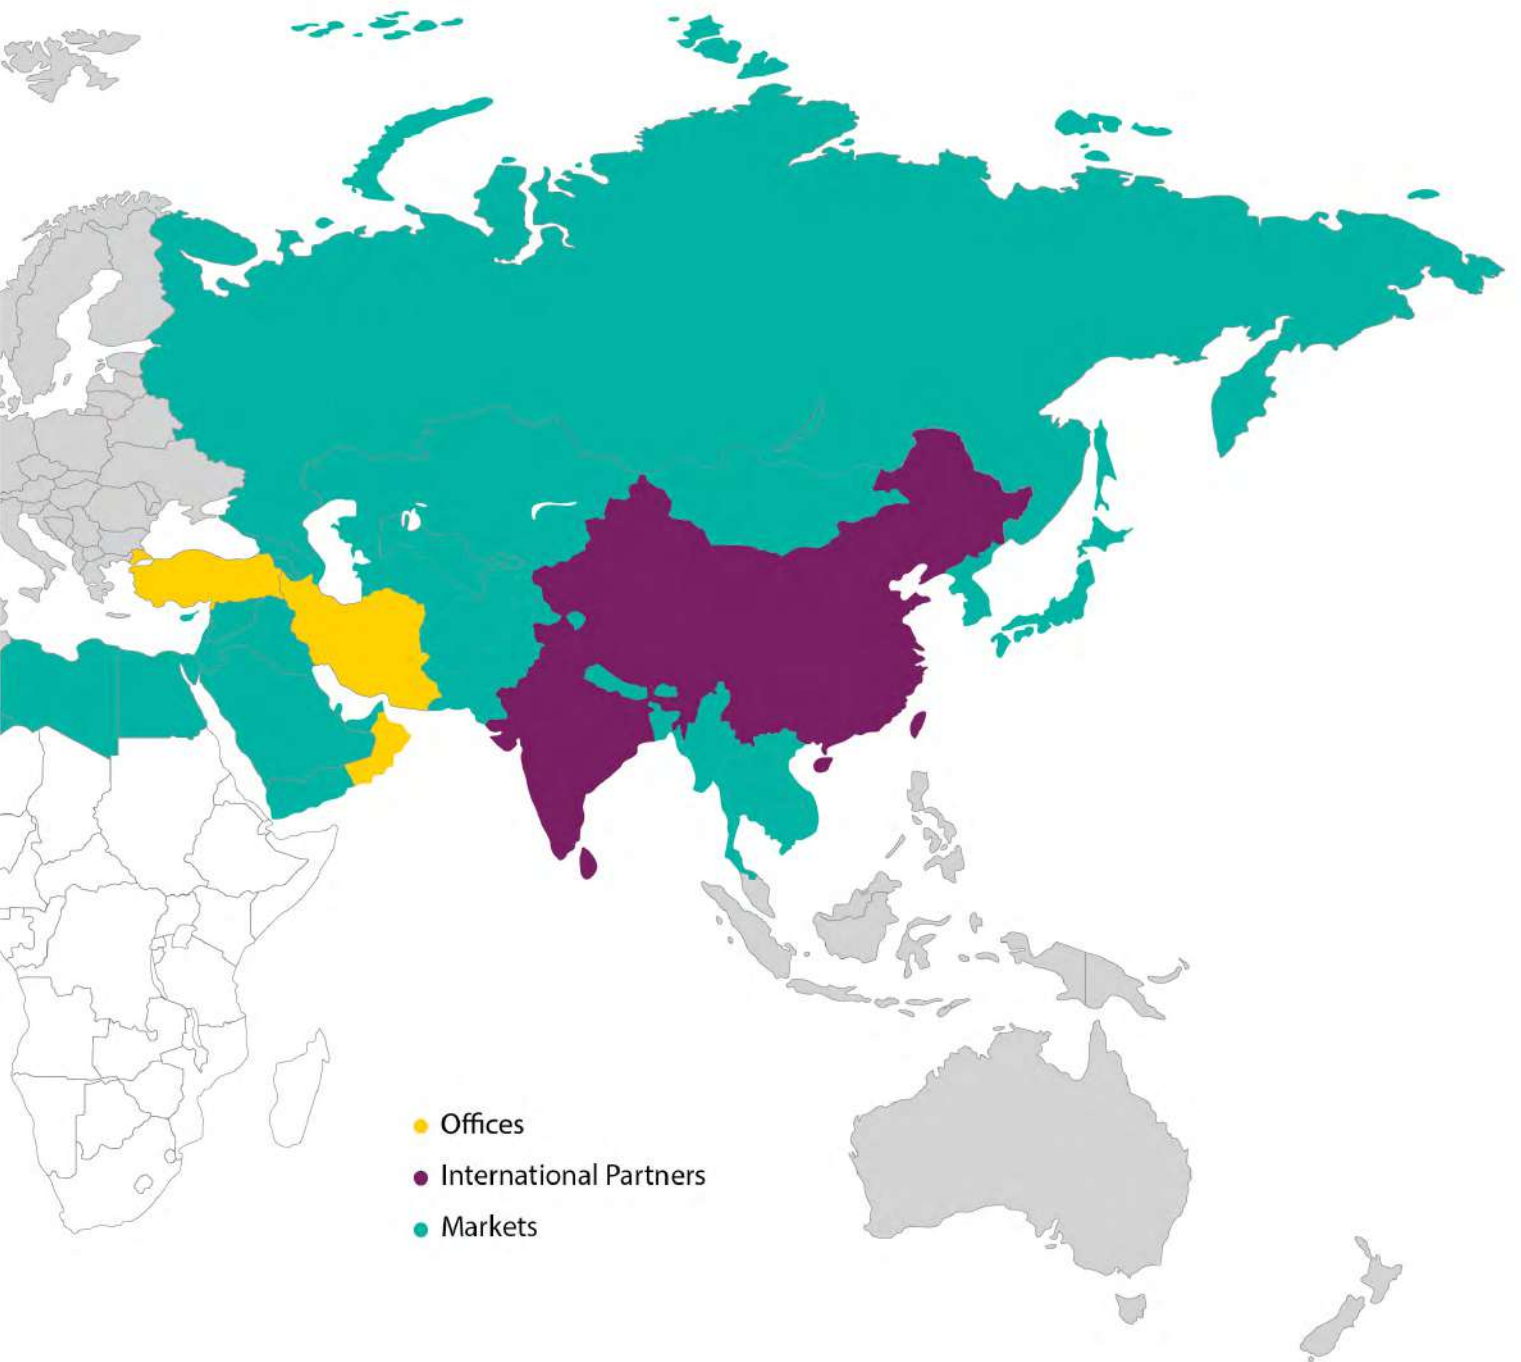

...Because you're wise

Product

- 4 Water and waste water treatment chemicals
- 7 Hydrocarbon processing
- 9 Oil and gas field
- 10 Well stimulation additives
- 11 Drilling and cementing additives
- 11 Anti corrosion coating

For more than 20 years, we have been active in Production, Supply and Distribution of Chemicals. For Oil, Gas, Petrochemical, Mining and Waste Water Treatment Industry.

Moreover, we are an active Project Developer in our field of expertise. Beyond production, we present major globally licensed manufactures, our multilingual team of experts has been focusing on offering best chemical solution, providing highest qualified products and services, and strengthening our partnership with our clients and customers. Your trust, believe and support has been our major gain during these years.

Vision

Rayeneh Group is an International Family that is well known in the region for project development while ranking among the top 100 companies worldwide in chemical and equipment trade.

Core Values

- Quality
- Honesty
- Social Responsibility
- Commitment to Safety and the Environment

Closed and Semi-Closed Cooling Systems

- Nitrite Based Corrosion Inhibitor
- Molybdate Based Corrosion Inhibitor
- Silicate Based Corrosion Inhibitor
- Nitrite- Molybdate Based Corrosion Inhibitor
- Low Conductivity Corrosion Inhibitor
- Specific Yellow Metal Corrosion Inhibitor
- Organic Corrosion Inhibitor
- Non- Oxidizing Biocides

Waste Water Clarification

- Coagulant Aids (Cationic)
- Flocculants (Anionic & cationic)
- Foam Control Agents
- Reverse Demulsifier
- Flotation Agent

Evaporative Cooling Systems

Zinc Phosphate Polymer
Zinc Phosphonate Polymer
Dianodic
Stabilized Phosphate
Molybdate Phosphonate Polymer
Azole
Bio Dispersant
Silica Dispersant
Oil Dispersant
Mineral Dispersant
Non- Oxidizing Biocides
Algicide
Bromine

Hydrocarbon Processing

Olefin Plant

- Antifoulant For Oil Quench Tower
- Emulsion Breaker For Water Quench Tower
- Corrosion Inhibitor For Process Water Stripper
- Antifoulant For Process Water Stripper
- Corrosion Inhibitor For Dilution Steam Generator
- Antifoulant For Dilution Steam Generator
- Antifoulant For Process Gas Compressor
- Anti polymer ant For Caustic Wash Tower
- Free Radical Anti-Polymerization For Amine System
- Antifoulant For Fractionation Towers

Styrene Monomer Process

- Antifoulant & Anti- Polymerization

Acrylonitrile Process

- Corrosion Inhibitor
- Antifoulant
- Antifoam

Butadiene Process

- Water Based Oxygen Scavenger- Iron passivator / Nitrite Based Compound
- Carbonyl Scavenger

PVC Process

- Water Based Neutralizing Amine
- Water Based Corrosion Inhibitor (Or Filmer)

Boiler

Pre- Boiler Treatment / Oxygen Scavenger

- Inorganic Oxygen Scavenger
- Organic Oxygen Scavenger
- Neutralizing Amine

Internal Treatment

- Phosphate Polymer Program
- Phosphate Chelant Polymer Program
- Coordinated Phosphate Program
- Congruent Phosphate Program
- All Polymer Program
- All Volatile Treatment

Condensate Treatment

- Neutralizing Amine
- Filming Amine Corrosion Inhibitor
- Filming And Neutralizing Amine

Water Preparation Systems

Chemical Treatment For MSF / MED Systems

- Scale Inhibitor
- Antifoam

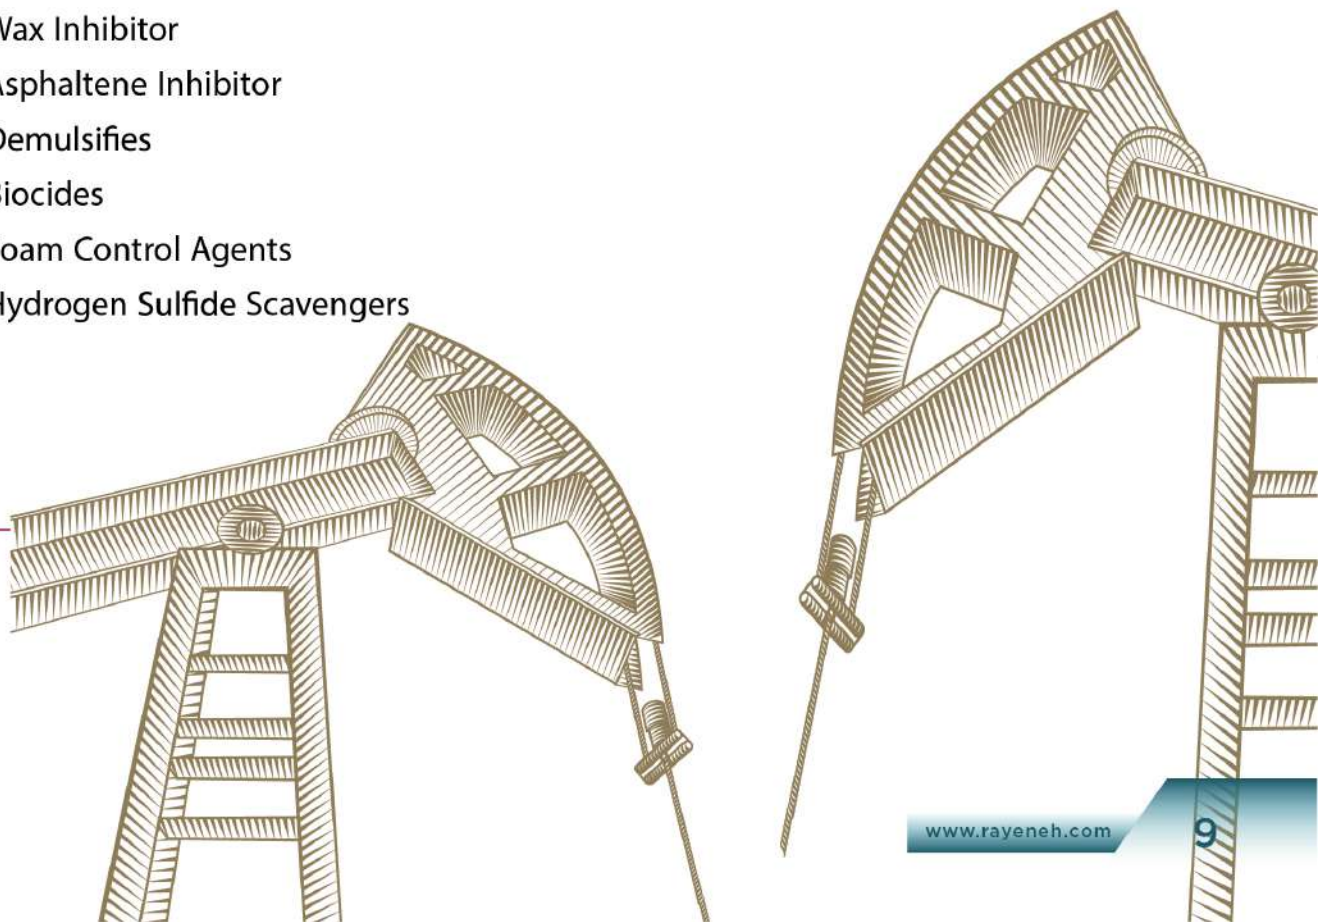

Chemical Treatment For RO System

- Scale Inhibitor
- Non- Oxidizing Biocide
- Cleaning Agent
- Flocculant

Old and Gas Fields

- Oil Soluble Corrosion Inhibitors For Oilfield
- Oil Soluble Corrosion Inhibitors For Gas Field
- Water soluble Corrosion Inhibitors For Oilfield
- Scale Inhibitors
- Gas Hydrate Control
- Oxygen Scavengers
- Wax Inhibitor
- Asphaltene Inhibitor
- Demulsifiers
- Biocides
- Foam Control Agents
- Hydrogen Sulfide Scavengers

Demulsifier

- Water Based / Oil Based
- Silicone Based

Corrosion Inhibitor

- Neutralizing Inhibitor (Water Based / Oil Based)
- Filming Inhibitor (Water Based / Oil Based)
- Neutralizing & Filming Inhibitor

H₂S Scavenger

- Water Based / Oil Based
- Amine Based
- Metal Based

Antifouling Inhibitor

- Dispersant
- Dispersant & Antioxidant
- Dispersant , Antioxidant & Metal Chelant
- Antioxidant (Water Based / Oil Based)

Acid Wash Corrosion Inhibitor

- High / Low Temperature Application Corrosion Inhibitors

Antifoam

- Water Based / Oil Based
- Silicon Based
- EO / PO Based Defoamers

Gasoline / Diesel Additives

- PPD (Pour Point Depressant)
- Antistatic Agent
- Water Scavenger

Well Stimulation Additives

- H₂S Scavenger
- Corrosion Inhibitor
- Mutual Solvent
- Iron Control and Iron Reducer
- Suspending Agent
- Non- Emulsifier
- Anti- Sludge Agent
- Corrosion Inhibitor Aid
- Emulsifier
- Viscoelastic Surfactant
- Foaming Agent
- Clay Stabilizer
- Surface Tension Reducer
- Multi- Functional Agent

Drilling Additives

- Drilling Bactericide
- Antifoam
- Primary Invert Emulsifier
- Secondary Invert Emulsifier
- Drilling Mud Emulsifier
- Foaming Agent For Fresh Water
- Foaming Agent For Salt Water
- Water Soluble Corrosion Inhibitor
- Oil Soluble Corrosion Inhibitor
- Lubricant Agent
- Drilling Pipe Stuck Additive
- Oil Mud Wetting Agent

Cementing Additives

- Dispersant (Universal)
- Dispersant (Fresh water)
- Gas blocking additive
- Fluid loss control (Universal)
- Fluid loss control
- Retarder (Universal)
- Retarder (Low temperature)
- Defoamer
- Spacer (Mud push)
- Accelerator
- Solvent
- Surfactant
- Chemical wash

Coming Together is a Beginning

Keeping Together is Progress

Working Together is Success
