

Rayeneh Group

Since 1999

...Because you're wise

Rayeneh-Daran which defines as consultants and experts were a high-ranking group of professional consultants and advisors in ancient Iran (Persia).

OUR POLICY

Our organizational values will light up the path...
As our Human Capital Benefit throughout the Journey,
As Agility, Innovation and Ongoing Improvement become our Approach,
As our Services Surpass Client Requirements,
As We Endeavor International Market with an Efficient Supply Chain,
And as we engage the Interconnected Digital World
And Employ New Managerial Models
We will stop nowhere short of these Promises,
Until we prosper

Vision

Rayeneh Group is an
international family that
is well known in the region
for project development
while ranking amount the
top 100 companies
worldwide in chemical and
equipment trade.

🔥 How It All Started...

It was the final days of the 20th century... the year 1999, In a rented room, somewhere in the big city of Tehran, a small private company was born to the world of commerce, and named "Rayeneh - Daran". While it started as a contractor and consultant for quality assurance systems, it grew rapidly. In less than a decade it flourished into an internationally trusted management contractor and a reliable EPC in different industrial backgrounds especially Oil & Gas, Petrochemical, Mining and Water Treatment. It capitalized on the wisdom of highly renowned national academic institutions and their faculty while collaborating with top tier international consultants and firms. It pursued a vast array of experts and expertise to better execute large scale national projects and gained the necessary knowledge to respond to their needs.

The company's emphasis on research and development and emphasis on commercializing innovative ideas and plans opened new venues beyond the initial scope of business and activities it had defined. This helped the company to position itself as a "Project Developer" and brought about a great change in its managerial and executive structure. As a result of this paradigm shift, Rayene - Daran has turned into a competent "Developer", efficiently transforming great opportunities into even higher valued business endeavors.

...And then it was time for transformation

The turning point was when it capitalized on its decade long knowledge base and expertise in the fields of Oil & Gas and Management. The Developer mindset helped it to reposition and make a successful entrance into the chemical market and related equipment.

Rayene-Daran did not stop here. It went further and established international offices and enhanced its services in regional and international markets.

During the second decade of its existence, having put behind some very hard times and triumphing in difficult situations that made existence seem impossible, Rayeneh-Daran has become a trusted name in the industry and hailed as a reliable source in supplying critical material and equipment while also exporting products. Today, Rayeneh-Daran seeks to initiate an innovative, knowledge-based production of precious metals such as gold, silver palladium etc. This production facility will be the first and only technological producer of its kind in the Middle East region. This trend will continue with the construction and inauguration of four more production facilities producing strategic chemical products for different industries.

Stay tuned as the chronicle of innovative evolution and development soars to new heights in the coming third decade. We are confident that your support and cooperation in this journey will be a pinnacle in this boundless path to unimagined triumph where we are all winners.

HISTORY OF EVENTS

1999 The stablishment of the company

and so it started

2000 Expanding activities and executing various projects

Initiated the execution of management, consulting and management contracting projects with international firms.

2005 Establishing specialized subsidiaries

Setting up and developing new expert companies in the fields of HSE, renewable energy and EPC contracting.

2007 Shift in stakeholders and board members to enhance activities

Change in shareholders and board structure.
Appointing Seyyed Mehrdad Jafari as CEO.

2008 Expanding International Collaborations

Broadening International cooperation and partnerships.
Expanding EPC project execution activities.

2009 Ten years down the road:

A decade of growth
Developing commercial activities in the chemical market.
Implementing quality management standards (2008 Revision).

**You can predict our future
Because you're wise**

2016 Joint Venture in developing production of precious metals

Partnering in the development and production of precious metal based alloys (precious metals) in Yasin Shimi Phoenix Knowledge Based Company.

Updating Quality Management Practices to 2015 Revision.

Acquiring QC Management Certification in the field of oil, gas and petrochemical industries (ISOTS29001)

2017 Establishing International offices

Established regional and international offices and branches.

Expanded international partnership network throughout Eastern Asia, Middle East and Western Europe.

2019 Two decades from the start

Two decades of presence and growth.

Prioritizing and expanding digital marketing and sales for chemicals.

Initiating and developing international projects and ventures in the mining industry with the partnership of Sazeh Pardazi Tosseh Datis Company.

2020 Planning to expand Chemical production activities

Defining and developing various production plans for the production of Strategic Chemicals.

Establishing the necessary infrastructure for exporting Chemicals.

Emphasis on regional and international commerce of chemicals and related equipment.

OUR SERVICES AND INTERNATIONAL NETWORK

Chemicals Trade (Import and Export)

- Specialty Chemicals
- Commodity Chemicals

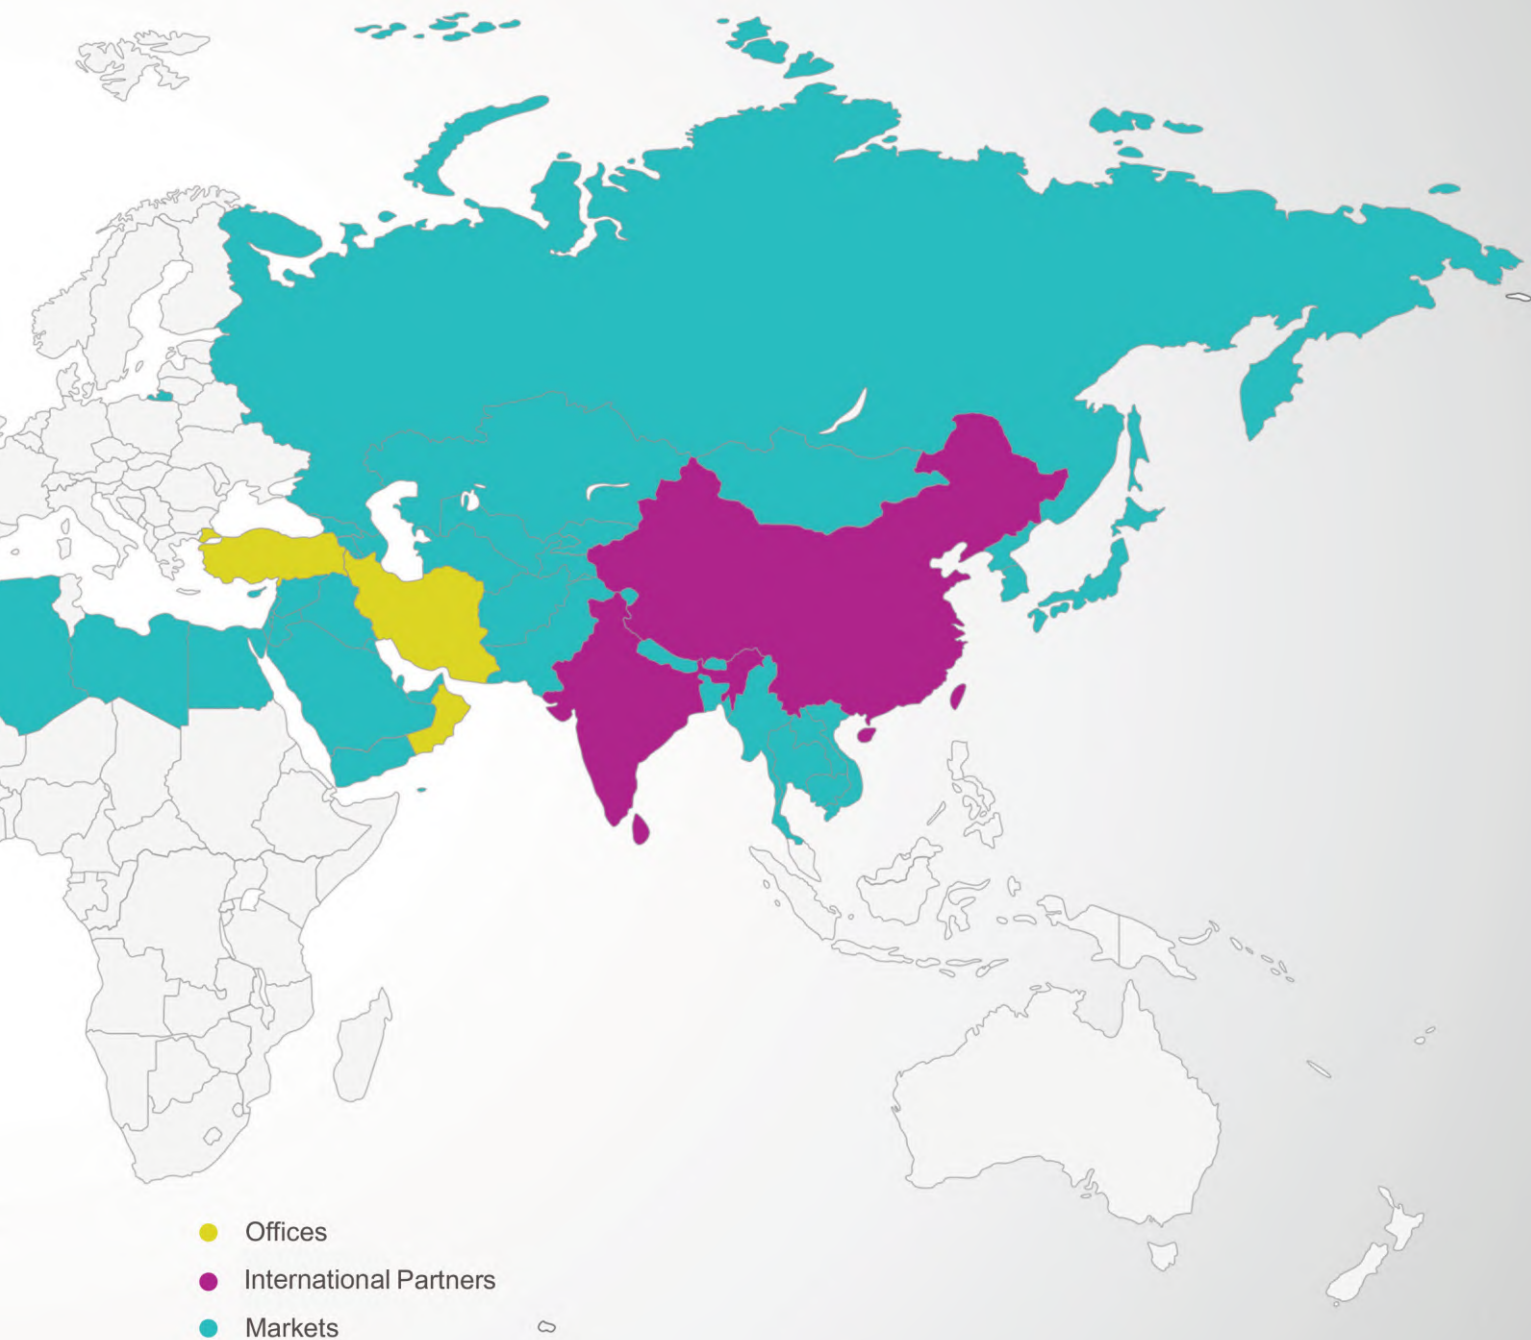

Supply Special Equipment

Project Development

- specialty and commodity chemicals
- Industrial recycling projects
- Precious metal compounds
- Mining & Mining products

Fields of Business

- Oil, Gas, Refining & Petrochemical
- Mine

EAST OR WEST
WE PROVIDE YOUR CHEMICALS

Rayeneh Group is an Expert company who has specialized in supplying chemicals and Specialty Equipment in Iran and the region for the past two decades. While stationed in Iran, this International Company benefits from its regional and International branches and partners to simplify access to different chemicals, catalysts and specialty equipment for the markets. We manage the complex supply chain of producers and consumers of the world in order to achieve this purpose and be among the most effective and desirable suppliers of chemicals, catalysts and specialty equipment. Due to our extensive knowledge of the market, producer capabilities and customer needs, our services go beyond trade and distribution. By undertaking special expert tasks and offering technical consultancy along side trading, we provide our suppliers and customers with customized solutions in industrial and specialized chemicals.

Continuous supply of DMSO

Continuous supply of Potassium and Sodium compounds

Continuous inventory- Tetrachloroethylene catalyst grade

Continuous supply of NaCN

The following are among the support and assistance mentioned:

- On-time and express delivery
- Integrations and synthesis of products
- Formulation
- Repacking
- Redefining application
- .Inventory management and barrel return and reuse

Our general commercial activities are as follows:

- Supply and distribution of chemical material in our territory
- Supply of specialty equipment such as:
 - .Precision instruments and monitoring equipment
 - Fixed mechanical equipment
 - Rotary equipment

Reliable supply of amine based products
(MDEA, DEA, DGA)

PROJECT DEVELOPER

Making Solutions Come to Life

With 20 years of experience and considerable potentials and facilities, Rayeneh Group has been an effective and efficient Project Developer in various industries

- Identify and analyze valuable opportunities
- Conduct feasibility studies
- Design execution plans
- Evaluate the business models
- Provide financial solutions/plans and finance
- Determine project structure
- Implement Projects
- Validate strategies for effective marketing and product development

**You can share your development
idea and opportunities with us
Because you're wise**

Cross Functional Multi-Disciplinary Approach

- Smart in identifying business opportunities and industry needs
- Specific skill set for research, design, and implementation of project solutions
- Identifying and securing funds for defined projects
- Specialist in cost-benefit analysis and informed decisions for a suitable business model based on research and industry best practices
- Effective marketing strategies for new products

Implemented Project:

- Production of precious metal compounds
- International Mining Project

CHEMICALS

A

- Acrylonitrile (ACN)
- Activated Alumina
- Activated Carbon
- Aluminum Sulfate
- Ammonia Liquid
- Anthracite
- Anti -Foam
- Anti-Icing
- Antioxidant(For Polymers)
- Anti-Sludge
- Anti-Static (ASA3)

B/C

- Barite
- Bentonite
- Calcium Carbonate
- Calcium Chloride
- Calcium Hydroxide
- Calcium Hypochlorite
- Calcium Nitrate
- Calcium Stearate
- Carboxymethyl Cellulose (CMC)
- Caustic Soda
- Citric Acid
- Coagulant
- Corrosion Inhibitor
- Cross Linker
- Cyclohexylamine

D

- De-Emulsifier
- Diatomite
- Dibenzoyl Peroxide (DBP)
- Dicumyl Peroxide (DCP)
- Diethanolamine (DEA) **JIT**
- Diglycolamine (DGA) **JIT**
- Dilauroyl peroxide (DLP)
- Dimethyl Disulfide (DMDS) **JIT**
- Dimethylformamide (DMF)
- Dispersant
- Distilled Tall Oil (DTO)
- Drag Reducing Agent (DRA)
- Drilling Detergent

E

- Emulsifiers
- Ethanol 96% **JIT**
- Ethylene Dichloride (EDC)
- Ethyl Acetate

F

- Ferric Chloride
- Flocculants
- Foam Agent
- Fouling-Inhibitor

JIT: Just in time delivery

G/H/I

- Guar Gum
- Hydroxy Ethyl Piperazine (HEP)
- Hydroxypropyl Cellulose(HPC)
- H₂S Scavenger
- Hydrazine Hydrate
- Hydrochloric Acid
- Hydrogen Peroxide
- Iron Chloride
- Iron Control Agent
- Iron Sulfide
- Isophthalic Acid
- Isopropyl Alcohol

J/K/L

None at this time

M/N

- Methyl diethanolamine (MDEA)
- Methylene Chloride **JIT**
- Mono Ethylene Glycol (MEG)
- Mono Glyceride
- Morpholine **JIT**
- MYPC
- N-Formylmorpholine (NFM)
- Nitric Acid

O/P

- O₂ Scavenger
- Perchloroethylene (C₂Cl₄) **JIT**
- Phenol
- Phosphoric Acid
- Polybutadiene Rubber (PBR low - cis)
- Polyelectrolyte
 - Anionic
 - Cationic
- Potassium Carbonate
- Potassium Chloride
- Potassium Hydroxide
- Potassium Persulfate
- Potassium Silicate
- Poly Aluminum Chloride (PAC)
- Poly Anionic Cellulose
- Precious Metal Compounds
 - Ag
 - Pd
 - Pt
- Poly Acrylamide

Q

None at this time

R

- Resins
 - Amberjet
 - Lewatit

- RO-Chemicals

S

- Silica Gel
- Sodium Bicarbonate
- Sodium Carbonate (Soda Ash) **JIT**
 - Light
 - Dense
- Sodium Cyanide 98% **JIT**
- Sodium Hypochlorite
- Sodium Metabisulfite
- Sodium Nitrite
- Sodium Sulfite
- Sodium Sulfate
- Surfactant
- Stearic Acid
- Scale Inhibitor
- Sodium Stearate
- SDVES
- Sulfuric Acid

T

- Tert-butyl Catechol (TBC)
- TEAL
- TINUVIN (all grades)
- Topanol A
- Trisodium Phosphate
- Triethylene Glycol (TEG)
- Tri Ethanol Amine (TEA)

U/V

None at this time

W/X/Y/Z

- White Mineral Oil (WMO)
- WingStay L
- Xanthan Gum
- Xylene
- Zinc Oxide
- Zinc Stearate

What If We Have Your Indent Already Available In Our Stock?

Our JIT Services Advantages:

- Efficient network of producers & suppliers
- Guarantee / Warranty / Technical support

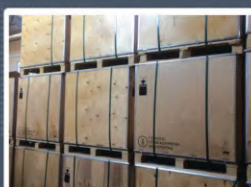

Just in Time Delivery on Vital Chemicals:

Activated Carbon

C2Cl4

NaCN

DMDS

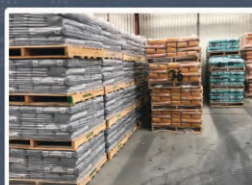

Peroxide

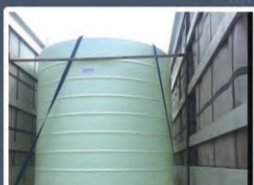

H2O2

Acids

Antioxidant

Ethanol 96%

Methylene Chloride

Caustic Soda

Soda Ash

If you think we should add to the list of chemicals in our inventory, let us know in our inventory, we are open to suggestions

MAJOR PROJECTS

Supplying High– volume of Chemicals & Catalysts to:

- > Refineries
- > Petrochemicals Complexes
- > Mining Industries

Supplying Customized Products for:

- > National Iranian Oil Company(NIOC)
- > National Iranian Oil Refining & Distribution Company
(NIORDC)
- > Iranian Offshore Oil Company(IOOC)

Management Services for:

- > National Iranian Oil Company (NIOC)
- > Refineries
- > Ministry of Energy (IRAN)
- > Municipalities
- > Iranian Offshore Oil Company (IOOC)
- > Oil Exploration Operations Company (OEOC)
- > United Nation Industry Development
Organization (UNIDO–Austria)

SOME OF MAJOR CLIENTS

DISTINCTION & ADVANTAGE

- Well-known in the market
- Sustained deep relationship with clients
- Systematic management and customer-oriented approach
- An empowered international network that efficiently provide for project requirement and clients needs
- Utilizing of cutting-edge scientific developments through extensive collaboration with universities and research institutes.
- Effective presence as a vendor to various prestigious companies such as NIOC, NIORDC, IOOC, OEOC
- Highly educated and experienced team including university professors, management experts, technical experts and engineers in the related fields
- Manufacturing plant and facilities for designing and production of specialty chemicals
- Agile commercial structure that enable resilience through strong management systems and effective logistics
- Access to financial resources
- Capable of designing and implementing financial solutions

**Coming together is begining
Keeping together is progress
Working together is success**

آنچه گذشت ...

شرکتی کوچک و خصوصی در اتاقی استیجاری در تهران، چشم به جهان کسب و کار گشوده و "راینه داران" نامیده می شود. اجرای پروژه های سیستم های کیفیت و خدمات مشاوره مدیریت، در طول ده سال، جای خود را به پروژه های بین المللی عامل چهارم، مدیریت طرح و EPC در حوزه های مختلف صنعت، بخصوص نفت، گاز، پتروشیمی، آب و معدن می دهد. همکاری مستقیم با اعضای هیئت علمی دانشگاه های برتر فنی و مهندسی کشور و تعامل و کار مشترک با مشاوران تراز اول در شرکتهای بین المللی، در اجرای برخی پروژه های ملی، زمینه آشنایی دقیق و احاطه بر فرآیندها، ملزومات و نیازهای این صنایع هدف را به ارمغان می آورد.

رویکرد شرکت به تحقق و تجاری نمودن ایده ها و طرح های نوآورانه، باعث نگاه مستمر گروه راینه داران به فرصتهای کاری، فراتر از فرآیندهای کسب و کار جاری می شود، به گونه ای که موضوع تکوین و پیشبرد پروژه های مبتکرانه، سنجش عمده ساختار مدیریتی و اجرایی راینه داران را در بر می گیرد. در نتیجه ی این نگرش، راینه داران بعنوان یک تکوین گر، مراحل تبدیل فرصت های برگزیده به کسب و کار ارزش افزا را دنبال می نماید.

... و نوبت به توسعه خویش فرا می رسد.

بهره مندی از تجارب تخصصی و علمی بدست آمده در دهه اول فعالیت در هر دو حوزه صنعت نفت و مدیریت، زمینه ساز نقطه عطف شرکت می گردد. ورود به عرصه تجارت مواد شیمیایی و تجهیزات خاص مورد مصرف در صنایع هدف، که ثمره همان رویکرد تکوین و پیشبرد است، اینبار برای خویش.

حضور و تعامل در بازارهای بین المللی و منطقه ای و تاسیس دفاتر خارج از کشور در دهه دوم فعالیت، باعث تداوم ارائه خدمات، حتی در شرایط سخت و گاهی به ظاهر غیر ممکن می شود تا جایی که علیرغم جوان بودن شرکت در تجارت، راینه داران به نامی آشنا و مانا در تامین مواد اولیه و حیاتی و تجهیزات تخصصی، و صادرات محصولات فرآوری شده در صنایع مرتبط تبدیل می گردد. گام بعدی توسعه، ورود به عرصه تولید است که با تولید ترکیبات فلزات گرانبها همچون نقره، طلا، پالادیوم، با مشارکت در احداث مجموعه ای دانش بنیان رقم می خورد. این مجموعه ی تولیدی به اولین و تنها تولید کننده و صادر کننده برخی محصولات فناورانه در سطح خاورمیانه تبدیل می شود، و تکرار این موفقیت با مشارکت در احداث مجموعه های مولد در زمینه ی تولید چهار ماده شیمیایی پر مصرف استراتژیک در صنایع هدف، مداومت می یابد.

... و با آغاز دهه ی سوم، حکایت تکوین و پیشبرد همچنان باقی است.

باور داریم که افتخار همراهی و همکاری با شما، آغاز یک رابطه در مسیر بی پایان موفقیت است، و هر رابطه، زمانی برنده خواهد داشت، که بازنده ای نداشته باشد

ارزش ها

کیفیت
صداقت و احساس مسئولیت
تعهد به ایمنی و محیط زیست

چشم انداز

گروه راینه خانواده ای ست بین المللی
و به نام در سطح منطقه در تکوین
و پیشبرد پروژه و یکی از صد شرکت
برتر جهان در تجارت مواد شیمیایی
و تجهیزات

به هم پیوستن یک آغاز است

دکندهم بلندن پیشرفت

و با هم کار کردن موفقیت
